Foreword	11
Preliminary Note	15
Acknowledgements	17
General Notes	19
1 Introduction	20
1.1 Research Problem	21
1.2 Approach	22
1.3 Study Area	24
1.4 Data	26
1.5 Chapter Organization	26
2 Nature	28
2.1 The Study Area and Its Natural Resources	28
2.2 Climate	34
2.2.1 Climate of the Central Andes	34
2.2.2 Climate Variability	35
2.2.3 Past Climate Reconstruction	37
2.2.3.1 The Geomorphological Evidence from the Palpa Area	37
2.2.3.2 The Palpa Data in a Continental Context	41
2.3 Environment Classification	47
3 Culture	53
3.1 Cultural Macro-Regions of the Central Andes	54
3.2 Previous Research	54
3.2.1 The Development of a Chronological Framework	56
3.2.2 The Introduction of Settlement Pattern Studies	57
3.2.3 Settlement Archaeology in the Río Grande Drainage	58
3.2.4 Archaeological Cultures of the South Coast and the Adjacent Highlands	62
3.2.4.1 The Initial Period (IP) and the Early Horizon (EH) Paracas Culture	62
3.2.4.2 The Nasca Culture of the Early Intermediate Period (EIP)	67
3.2.4.3 The Wari Culture of the Middle Horizon (MH)	69
3.2.4.4 Cultures of the Late Intermediate Period (LIP)	71
3.2.4.5 The Inca Culture of the Late Horizon (LH)	73
4 Culture Meets Nature	77
4.1 The Impact of Resource Availability on Culture	77
4.2 Particularities of Human-Environmental Relationships in the Central Andes ...	80

4.3	Past Climate and Its Impact on the Agricultural Potential	81
4.3.1	Precipitation	82
4.3.2	Temperature	85
4.3.3	Variability	86
4.3.4	The Potential of Irrigation Agriculture	88
4.3.5	The Agricultural Potential under Different Climatic Conditions	90
5	Archaeological Settlement Data – Acquisition, Classification, and Analytical Methods	94
5.1	Data Acquisition and Revision	94
5.1.1	Surveys and Excavations Carried Out by the Palpa Project	95
5.1.2	Restructuring of the Palpa Project Database	97
5.1.3	Complementary Surveys	100
5.2	Classification of Settlements	102
5.2.1	What is a Settlement?	103
5.2.2	Chronological Classification	103
5.2.2.1	Relative Chronology of the Ica and Río Grande Drainages	104
5.2.2.2	Numeric Chronology in the Ica and Río Grande Drainages	108
5.2.3	Population Size Classification	109
5.2.4	Status Classification	113
5.2.5	The Settlement Database	115
5.3	Population Development and Dislocation of Settlements	119
5.3.1	Population Index	120
5.3.2	Total Settlement Area at Phase Transitions	121
5.3.3	Dislocation	124
5.4	Spatial Analyses	126
5.4.1	GIS and Database Linking	127
5.4.2	Distribution Maps	128
5.4.3	Relative Distance and Altitude Calculations	132
6	Results: Diachronic Settlement Patterns, 1500 BCE–1532 C.E.	137
6.1	Basic Architectural Features	137
6.2	Spatial Settlement Distribution by Size and Status Classes	138
6.3	The Initial Period (IP)	141
6.3.1	Settlement Layout and Construction Techniques	141
6.3.2	Settlement Location and Subsistence	143
6.3.3	Hierarchy and Defensive Measures	144
6.3.4	Major Inter-Phase Developments	144
6.4	The Paracas Period	146
6.4.1	The Early Paracas Phase (EP)	146
6.4.1.1	Settlement Layout and Construction Techniques	148
6.4.1.2	Settlement Location and Subsistence	151
6.4.1.3	Hierarchy and Defensive Measures	151
6.4.1.4	Major Inter-Phase Developments	153
6.4.2	The Middle Paracas Phase (MP)	153
6.4.2.1	Settlement Layout and Construction Techniques	157
6.4.2.2	Settlement Location and Subsistence	159

6.4.2.3	Hierarchy and Defensive Measures	160
6.4.2.4	Major Inter-Phase Developments	161
6.4.3	The Late Paracas Phase (LP)	161
6.4.3.1	Settlement Layout and Construction Techniques	163
6.4.3.2	Settlement Location and Subsistence	171
6.4.3.3	Hierarchy and Defensive Measures	174
6.4.3.4	Major Inter-Phase Developments	174
6.5	The Nasca Period	175
6.5.1	The Initial Nasca Phase (IN)	175
6.5.1.1	Settlement Layout and Construction Techniques	177
6.5.1.2	Settlement Location and Subsistence	182
6.5.1.3	Hierarchy and Defensive Measures	183
6.5.1.4	Major Inter-Phase Developments	185
6.5.2	The Early Nasca Phase (EN)	187
6.5.2.1	Settlement Layout and Construction Techniques	187
6.5.2.2	Settlement Location and Subsistence	190
6.5.2.3	Hierarchy and Defensive Measures	193
6.5.2.4	Major Inter-Phase Developments	194
6.5.3	The Middle Nasca Phase (MN)	196
6.5.3.1	Settlement Layout and Construction Techniques	196
6.5.3.2	Settlement Location and Subsistence	201
6.5.3.3	Hierarchy and Defensive Measures	203
6.5.3.4	Major Inter-Phase Developments	203
6.5.4	The Late Nasca Phase (LN)	205
6.5.4.1	Settlement Layout and Construction Techniques	205
6.5.4.2	Settlement Location and Subsistence	207
6.5.4.3	Hierarchy and Defensive Measures	207
6.5.4.4	Major Inter-Phase Developments	211
6.6	The Early and Middle Wari Phase	211
6.6.1	Settlement Layout and Construction Techniques	213
6.6.2	Settlement Location and Subsistence	218
6.6.3	Hierarchy and Defensive Measures	220
6.6.4	Major Inter-Phase Developments	220
6.7	The Middle-Late Ica & Inca Phase	221
6.7.1	Settlement Layout and Construction Techniques	223
6.7.1.1	Nanasca Foothill Settlements	223
6.7.1.2	Foothill Settlements Including Inca Architecture	227
6.7.1.3	Rucanas Cabezadas Settlements	229
6.7.1.4	Cabezadas Settlements Including Inca Architecture	231
6.7.2	Settlement Location and Subsistence	233
6.7.3	Hierarchy and Defensive Measures	236
6.7.4	Major Inter-Phase Developments	238
7	Discussion: Settlement, Migration, and Climate Change	240
7.1	Foothills and Cabezadas Dwellers	240
7.2	Population Development and Migration	242

7.3 Beginning Initial Period to the Early Middle Paracas Phase (1500–450 BCE)	245
7.4 Late Middle Paracas Phase to the Earlier Initial Nasca Phase (450–100 BCE)	246
7.5 Later Initial Nasca Phase to the End of the Early Nasca Phase (100 BCE–300 CE)	250
7.6 Beginning Middle Nasca Phase to the Beginning Early Wari Phase (300–700 CE)	253
7.7 Middle of the Early Wari Phase to the End of the Middle Wari Phase (700–850 CE) and Hiatus (850–1180 CE)	257
7.8 Beginning Middle Ica Phase to the Spanish Conquest (1180–1532 CE)	260
8 Conclusions: The Impact of Climate Change on Settlement Behavior	264
Abstract	272
Resumen	273
Zusammenfassung	274
List of Figures	276
List of Tables	285
List of Maps	286
Glossary: Terms of Spanish and Quechua Origin	288
List of Abbreviations	289
References	290
Content of the Supplement DVD	316
